Designed with Meaning

From corporate events and creative industry gatherings to milestone birthdays and private celebrations, Popina offers a setting that feels considered rather than conventional.

Created by the team at Lynrace Studio, the space blends thoughtful design with relaxed hospitality. Warm lighting, red velvet curtains and an intimate layout create an atmosphere that encourages conversation rather than spectacle.

We specialise in events that value quality over scale. Whether hosting clients, bringing a team together or marking a personal milestone, Popina provides a setting that feels calm, refined and effortlessly hosted.

Located in the heart of Jericho in Oxford , known for its authentic Italian cheese, charcuterie and carefully curated wines, Popina delivers gatherings with character and presence.

Authentic Italian Cheese & Charcuterie Thought-provoking Wine

At Popina, food and wine are not an afterthought to the event – they are the experience.

Our food pairings are centred around carefully sourced Italian cheeses and charcuterie, small tasting and sharing boards designed to compliment our wine list, encouraging conversation and connection.

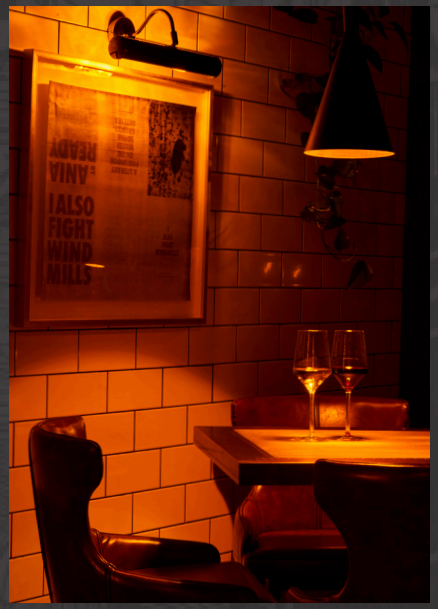

Our wine is curated with intention. Independent producers, characterful bottles and unexpected finds sit alongside trusted classics. Each selection is chosen to spark interest, not simply fill a glass.

For private events, we offer:

- Curated cheese and charcuterie boards
- Sharing menus
- Sparkling and wine-led receptions
- Guided tastings and pairings

Food pairings can be structured around your guest list and the tone of the occasion from relaxed evening gatherings to more formal seated events and tastings.

A Space with Presence

Popina is layered, the space unfolds naturally, offering a variety of settings within one cohesive space.

Stools line the bar for informal conversation. Low armchairs create quieter moments. Bench seating and bistro tables encourage closer conversation, while high tables with stools allow for relaxed standing receptions and easy movement.

This variety allows guests to settle where they feel most comfortable, whether gathering around a central table, leaning into the bar or stepping aside for a more intimate exchange.

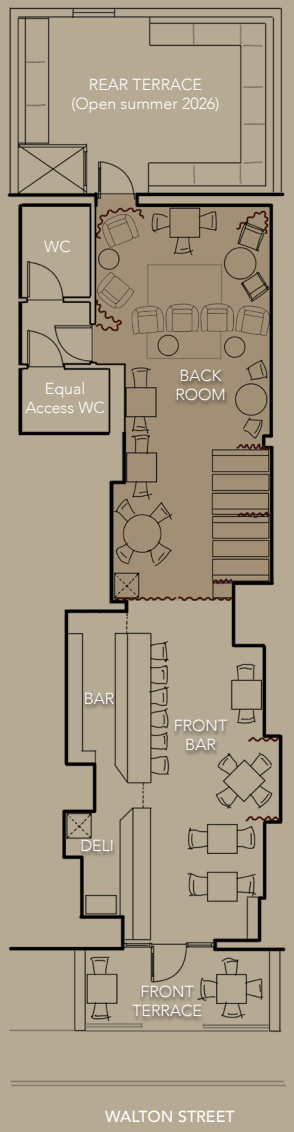

Both front bar and back room carry energy when full and retain warmth when quiet. It feels sociable without being crowded, intimate without being enclosed.
